- ⊕ HSC (Science) or equivalent.
- ⊕ Nonscience aspirants with minimum one-year work experience in dialysis can clear RPL (Recognition of

Apex School of Dialysis Technology

Apex School of dialysis technology (ASDT) is the Education and training department of Apex Kidney Care (AKC). It was formed in 2010 with the aim of training students into becoming dialysis technicians apart from providing continued education to practicing dialysis technicians both in-house and those working in other hospitals and institutes across the country.

It has an excellent infrastructure in terms of the equipment for training including the state of the art dialysis machines, water treatment plants, reprocessing machines, computerized patient database, etc. Students have access to all the centers of AKC, which are spread across various cities in India. AKC is vertical Anchor for Dialysis Technology for Tata Institute of Social Sciences - School of Vocational Education (TISS- SVE).

ASDT faculty comprises of eminent professionals from the field of nephrology, vascular surgery, dialysis

Tata Institute of Social Sciences

Tata Institute of Social Sciences (TISS) was established in 1936, as the Dorabji Tata Graduate School of Social Work, the first school of social work in India. It was renamed to its current name in 1944. It was declared Deemed to be a University in 1964 by the University Grants Commission of India.

TISS has earned recognition as an institution of repute from different Ministries of the Government of India and various State Governments, as well as international agencies such as the United Nations, and the non-government sector, both national and international.

Tata Institute of Social Sciences has set up the School of Vocational Education (SVE). The School has been incorporated to spearhead the Vocational Training envisaged in the initiative proposed by the Ministry of HRD,
